AM Pierce & Associates Employees Recognized in Conjunction with 17th Annual Naval Air Warfare Center Aircraft Division (NAWCAD) Commander's Award and Innovation Award Ceremony

On Dec 13th, at the 17th annual Naval Air Warfare Center Aircraft Division (NAWCAD) Commander's Award and Innovation Award ceremony, the MQ-4 Triton Integrated Test Team (ITT) was recognized as NAWCAD's Test Team of the Year. The Triton ITT accomplished several firsts for the Triton Air Vehicle program, including many sensor and data transfer achievements which directly support delivery of a new Maritime Patrol and Reconnaissance capable weapons system. The MQ-4C Triton is an unmanned system that will provide combat information to operational and tactical users as well as respond to theater level operational or national strategic tasking.

AM Pierce & Associates has proudly supported the Triton ITT for over six years and looks forward to continuing to provide the technical expertise and innovation that makes the Triton ITT stand out amongst its peers.

A total of ten teams and two individuals were recognized during the ceremony. For more about all award recipients, visit: [NAVAIR News](#).
